

Interstate 5 Transportation Concept Report (TCR) Public Workshops/Presentations

The California Department of Transportation (Caltrans), District 2 hosted a number of public workshops regarding the I-5 TCR from September 2003-November 2003. The purpose of these workshops was to provide the public the opportunity to discuss the future needs and development opportunities of I-5.

Some of the issues to be addressed during the workshops included traffic conditions, population trends, community demographics, land use, transportation of goods, environmental issues, transit services and bicycle and pedestrian facilities.

Caltrans welcomes any additional suggestions or comments the public may have regarding the proposed TCR. Comments or questions may be registered at the meeting, by telephone, or by mail. Written comments should be sent to the California Department of Transportation, Attention: Kathy Grah, Office of System Planning, P.O. Box 496073, Redding, CA 96049-6073. Or contact Kathy at (530) 225-3236 or kathy_grah@dot.ca.gov.
